### Technical requirements regarding the hose (hose assembly)

internal diameter:

working pressure:

inside temperature:

ambient temperature:

medium being  
transferred:

medium state or type:

- liquid
- gas
- steam
- food products
- solid

classification to 97/23/WE (mark X):

- dangerous - explosive (E)
- dangerous - extremely flammable (F+)
- dangerous - highly flammable (F)
- dangerous - flammable (wt higher than ignition temperature)
- dangerous - very toxic (T+)
- dangerous - toxic (T)
- dangerous - oxidising (O)
- other

concentration:

additional information:  
(detailed description)

external conditions:  
(risk of external damage)

instalation: dynamic / static  
(bending during work or lack of it)

additional requirements:

required certificates:

end fitting no 1:  
(type, size, material)

end fitting no 2:  
(type, size, material)

number of assemblies -  
complete length (mm):

expected delivery time:

space for a drawing of  
a hose assembly,  
instalation or  
additional remarks:

product used so far:

prepared by:

date, signature:
